Student Panel (App) — Complete Specification

Oct 13, 2026 · @Nagendra

Overview

The student app helps older students organise their own school day — timetable, homework and submissions, exams, results, notices, library books and study material — while money, chats and anything sensitive stay with parents and the school.

Who gets a login

- The school chooses from which class students get their own login (default Class 6 and above) in Settings; younger children use only the parent app.
- The account is created at admission; the student signs in with OTP on their own mobile (if the school records one) or on the parent's mobile, then sets a PIN.
- A parent can see that the student app is active and can ask the school to switch it off.

What students see and do

Can see and do	Cannot see or do
Own timetable, substitutions, homework with due dates, submit homework photos, own attendance, own published results and report cards, exam date sheet and syllabus, notices for their class, library books issued and search catalogue, study material from teachers, own profile (read-only)	Fees and payments, other students' data or marks, private chat with teachers or other students, teachers' contact details, discipline records, parent-only notices

Safety for minors

- No chat of any kind (students under 18 do not message teachers or each other in the app; questions go through class or the parent app).
- No ads, no tracking for advertising, no third-party analytics SDKs (DPDP Act duty for children).
- Profile photo and personal details are view-only; changes go through parents.

Navigation

Bottom tabs: **Home** · **Timetable** · **Homework** · **Results** · **More** (attendance, notices, library, study material, profile, settings).

Sample used in all designs: Charu Mehta, Class 8-B, roll 03, class teacher Sunita Rathore.

Home, timetable and homework

Home

Section	Contents
Greeting	Name, class, date
Now and next	Current period and next period with subject, teacher and room; substitution shown in amber
Due soon	Homework due today and tomorrow with status (To do, Submitted, Redo)
Upcoming exam	Next exam with days left and syllabus link
Latest notice	Title and date
Library	Book due back soonest (amber when overdue)

Timetable and exams

- **Today / Week:** periods with time, subject, teacher, room; today highlighted; substitutions marked.
- **Exams:** date sheet with subject, date, time, syllabus; countdown to the first paper; admit card (view only, printed by the school).

Homework

- List grouped by due date (Today, Tomorrow, This week, Past) with subject, task, teacher, due date and status.
- Open a homework: full task, attachments from the teacher, submission type.
- **Submit:** take or choose up to 5 photos (or a PDF), preview, *Submit*; shows "Submitted at 7:40 pm"; can replace until the due date.
- After checking: Checked or Redo with the teacher's short comment.
- Offline: photos queue and upload when online.

Attendance, results, notices, library and more

Screen	Contents
Attendance	Month calendar (view only), attendance % this year, days absent; a note that leave is applied by parents
Results	Published terms; report card with overall %, grade, subject grades with bars, co-scholastic grades, class teacher's remark; no rank unless the school shows ranks
Notices	Notices for the student's class and school-wide notices marked for students; attachments; no consent buttons (those are for parents)
Library	Books issued with due date (amber when due within 2 days or overdue, with the fine shown), history; catalogue search by title, author or subject with availability and rack
Study material	By subject: notes, worksheets, links shared by teachers; download for offline reading
Profile	Photo, name, class, roll, admission number, house, class teacher; read-only with "Ask your parent to request changes"
Settings	Language, notifications, app PIN, sign out

Notifications

Homework posted, homework checked or redo, substitution in a period, exam date sheet published, result published, library book due or overdue, new notice for students. Quiet hours from the school's settings apply.

Rules, screen index and acceptance checklist

Area	Rule
Access	Only for classes the school enables; ends when the student leaves or the school turns it off

Area	Rule
Privacy	Only the student's own records; no chat; no ads or advertising trackers
Results	Visible only after publishing; withheld report cards show "Ask your parent" without fee details
Homework	Submissions accepted until the due date; late submissions marked Late if the teacher allows them
Devices	Works on low-end Android phones; photos compressed before upload

All 12 student screens are new:

Screen	Tab
Home	Home
Timetable · Exam date sheet	Timetable
Homework list · Submit homework	Homework
Results and report card	Results
More menu with profile	More
Attendance · Notices · Library · Study material	More
Notifications	Header bell

- [ ] Only classes enabled by the school can sign in
- [ ] No fee, chat or other student's data appears anywhere
- [ ] A homework photo can be submitted and replaced until the due date, also after going offline
- [ ] Results appear only after publishing
- [ ] Library due and overdue books are clearly shown
- [ ] Every screen works in English and Hindi
